KEY TOPICS

Our Journey

Our Services

- HDPE Geomembrane Pond Liner Sheets & Landfills
- HDPE & PVC Tarpaulin
- Tents
- Biofloc Tarpaulin Tanks
- Green Shade Nets
- LDPE Sheets

The Beginning

Siddhivinayak Plastics was established over a decade ago, by Mr. Hasmukh C. Shah - a man with the foresight to appreciate that in the coming years, the conservation of water was going to be Mankind's top-most priority.

TODAY

Having proved our expertise in water holding and water ponding activities, we offer LDPE, HDPE, & PVC sheets with superlative water-holding, waterproofing capabilities for the construction of highways, bridges, and all sorts of infrastructural developments & projects, where holding water reliably for several weeks was imperative, for the proper curing of cement.

OUR RANGE OF SERVICES

TENTS

The same excellent water resistant quality makes the material suitable for various types of tents and tarpaulins – tents, tarpaulins, cap-covers for stacks, for temporary settlements of sugar factory workers, tents and tarpaulins for relief operations during disasters. In fact, tents and tarpaulins for all applications. We also deal in temporary monsoon sheds.

OUR RANGE OF SERVICES

BIOFLOC TANKS TARPAULINS

The exceptional water-holding qualities proved to be so reliable, that we started making Biofloc Tank Tarpaulins for the Fish Farming industry, and became India's leaders in this field. We are also the first company to produce Biofloc tank tarpaulins ranging in diameter from 1.5 mtrs. to 30 mtrs.

OUR RANGE OF SERVICES

WAGON COVERS & MORE

Apart from the above uses, the sheets soon captured the market for Wagon Covers for the Railways, and Covers for large truck loads of materials in transit and in open air storage yards.

All these are available in different sizes and thickness.

Siddhivinayak Plastic
Industries, Pune

We Deal in Green Shade Net, in various widths, with 50%, 75% and 90% translucency ratings.

These are used for:

- Protection of Plants/Crops and Biofloc Projects from Excessive Sunlight.
- Provision of uniform shade for better yield.
- Protection against Insects, Birds.
- Provision of Soil Support.
- Reduction of water evaporation.
- To act as barrier against heavy Rains, hail storms and other forms of nature's fury.

LDPE SHEET

LDPE Sheets are used during construction of Infrastructure, Ponds, Roads, Buildings, and bridges.

Translucent and Opaque LDPE Sheets
